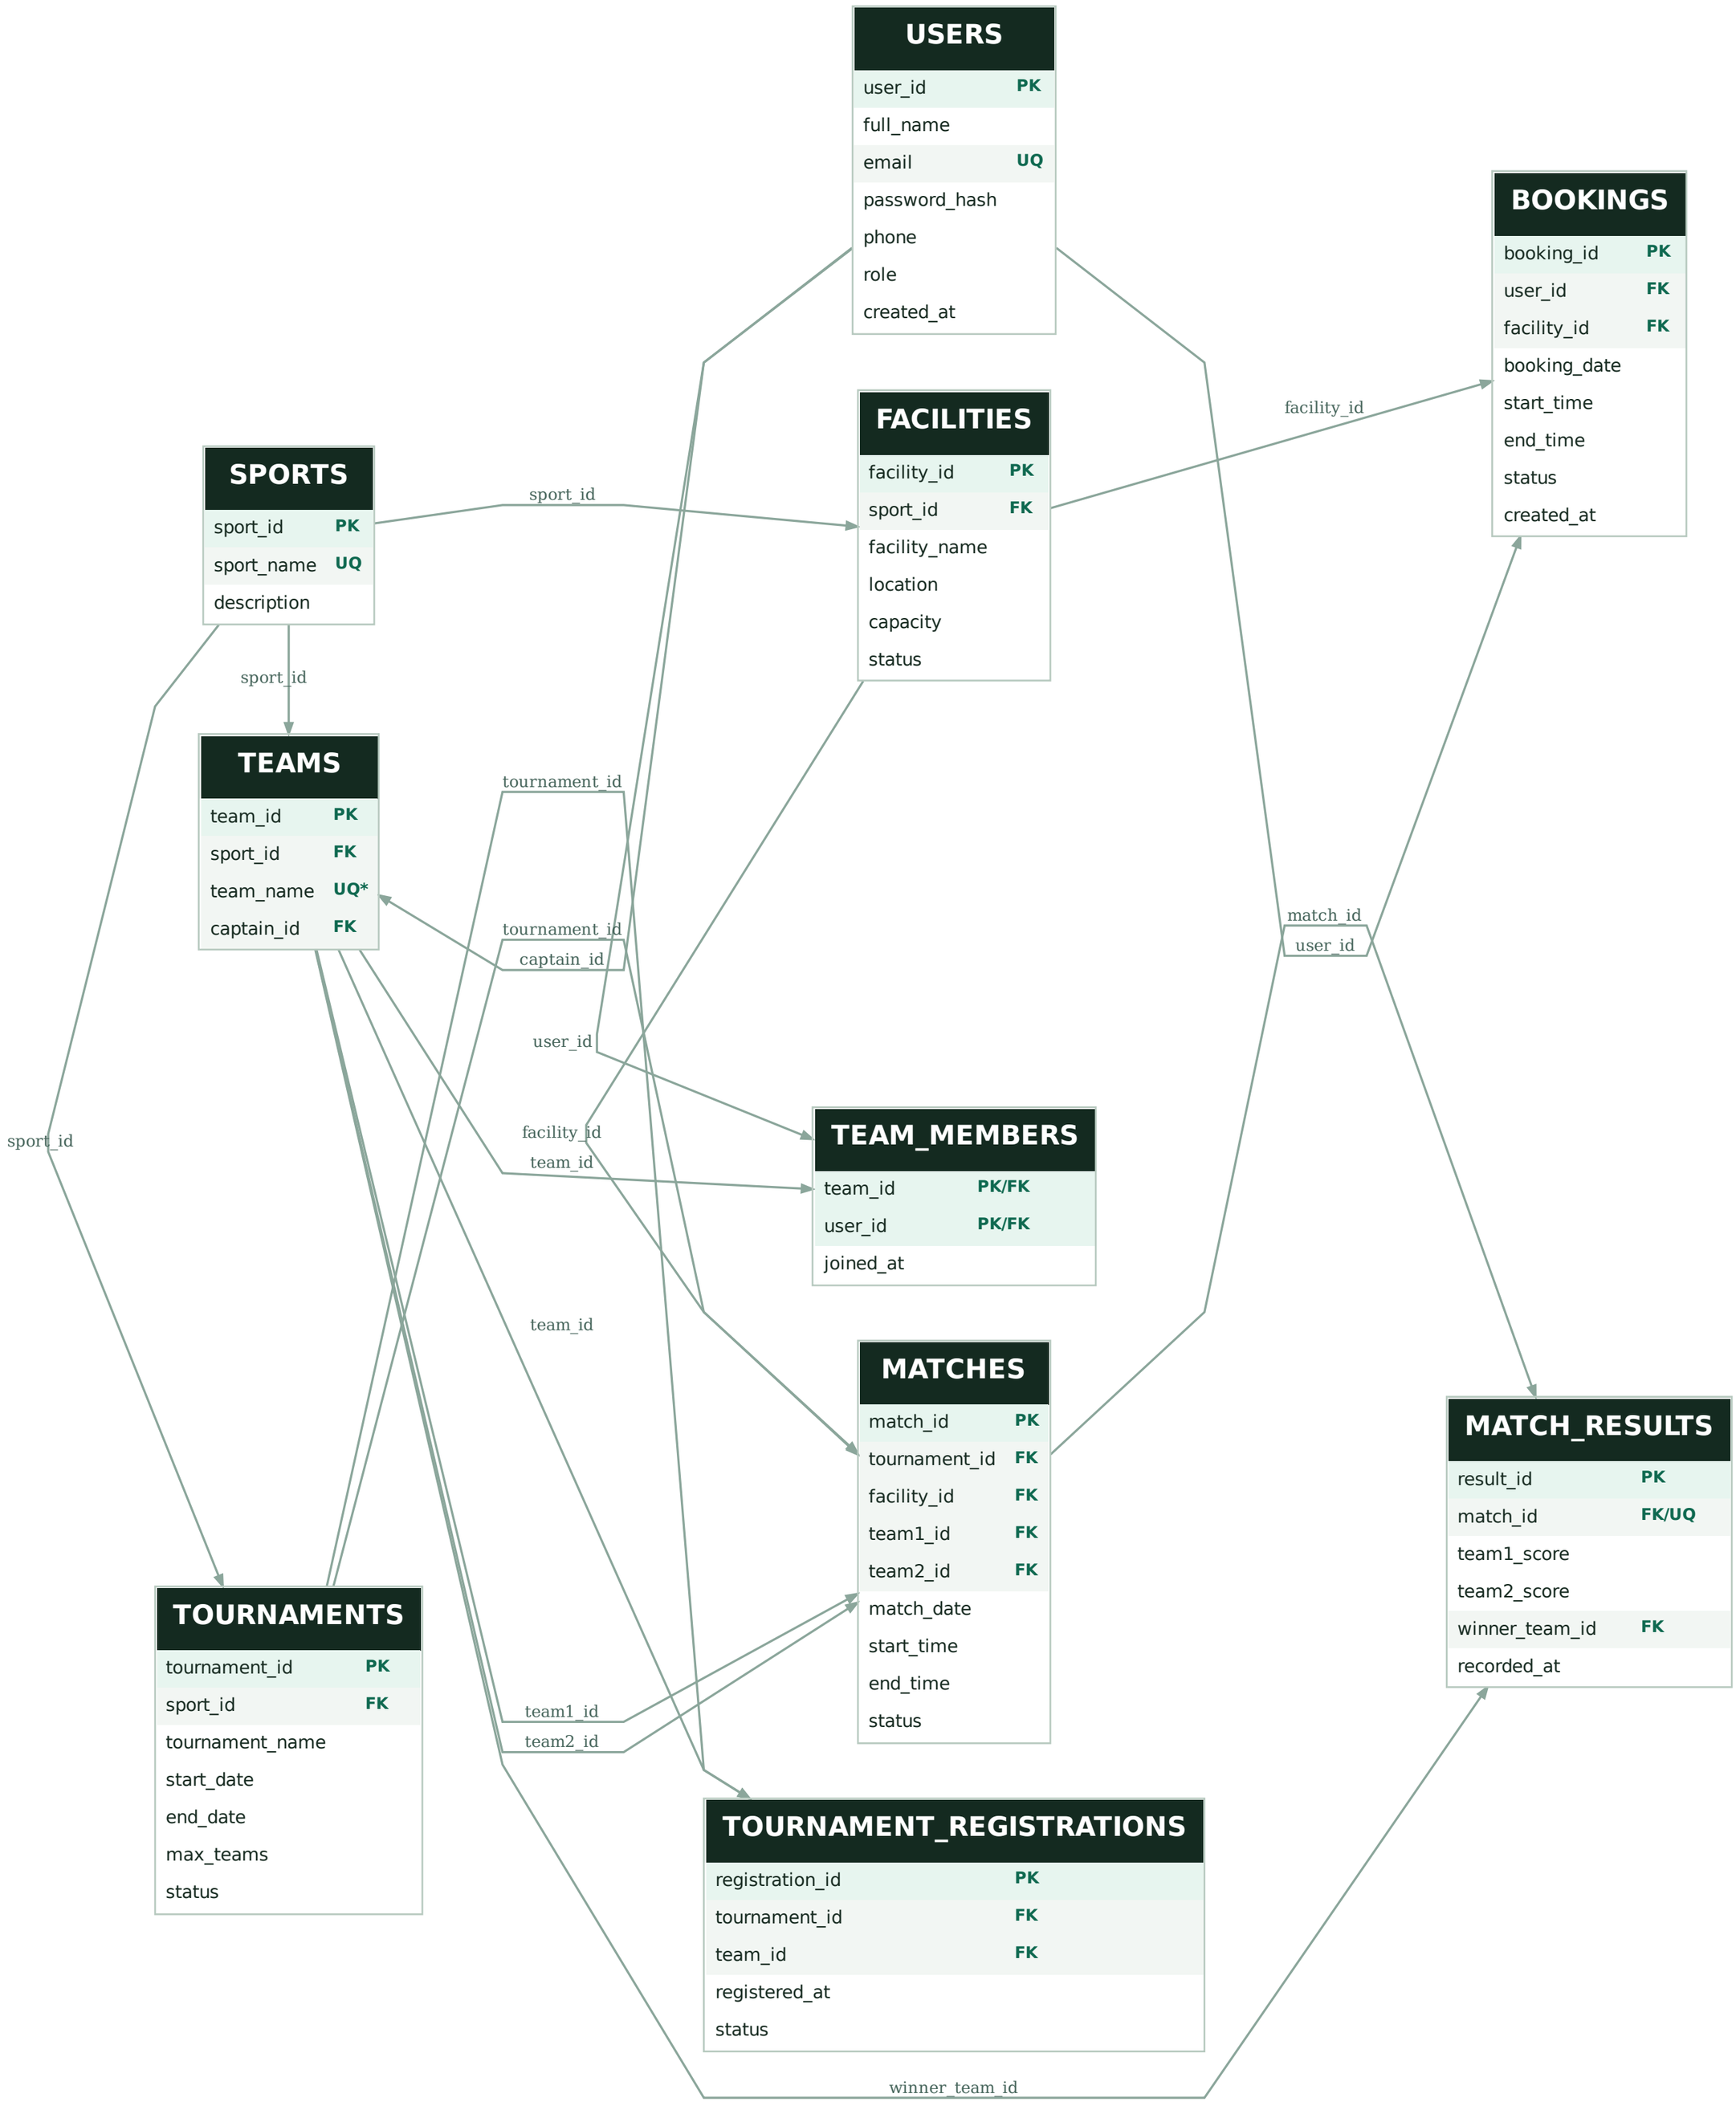
ARENA | RELATIONAL SCHEMA DIAGRAM
10 MySQL Relations - Primary Keys / Foreign Keys



ARENA / RELATIONAL SCHEMA

Relation notation and foreign key reference guide

USERS

user_id (PK) | full_name | email (UQ) | password_hash | phone | role | created_at

SPORTS

sport_id (PK) | sport_name (UQ) | description

FACILITIES

facility_id (PK) | sport_id (FK) | facility_name | location | capacity | status

BOOKINGS

booking_id (PK) | user_id (FK) | facility_id (FK) | booking_date | start_time
end_time | status | created_at

TOURNAMENTS

tournament_id (PK) | sport_id (FK) | tournament_name | start_date | end_date
max_teams | status

TEAMS

team_id (PK) | sport_id (FK) | team_name (UQ*) | captain_id (FK)

TEAM_MEMBERS

team_id (PK/FK) | user_id (PK/FK) | joined_at

TOURNAMENT_REGISTRATIONS

registration_id (PK) | tournament_id (FK) | team_id (FK) | registered_at | status

MATCHES

match_id (PK) | tournament_id (FK) | facility_id (FK) | team1_id (FK) | team2_id (FK)
match_date | start_time | end_time | status

MATCH_RESULTS

result_id (PK) | match_id (FK/UQ) | team1_score | team2_score | winner_team_id (FK)
recorded_at

PK = Primary Key | FK = Foreign Key | UQ = Unique

TEAM_MEMBERS has a composite PK (team_id, user_id).

TEAMS has a composite unique constraint (sport_id, team_name).
